Personal Orientations Related To Licensure Or Vendorization

Many people are left with more questions than answers following their Community Care Licensing (CCLD) Component I or Regional Center (RC) orientation. These meetings are designed for a broad audience with an emphasis on the application materials and regulatory requirements and may not adequately address your individual situation or concerns. The following

- What type or level of facility is best for you?
- What steps are needed to obtain a license or vendorization and in what order should you complete them?
- How much money do you need?
- Should apply for a license as a sole proprietor, corporation, LLC, or partnership?
- What classes, work experience, and other requirements do you need?
- Are there any potential problems with your proposed facility, or will you need to make any modifications?

A *Personal Orientation* may be needed to answer your questions.

Personal Orientations will last up to 2-hours and can be held at the proposed facility, over the phone, or at any agreed upon location. All of the following, and more, can occur during our meeting:

- An inspection of the proposed facility to identify any potential problems.
- Assistance in deciding your capacity.
- Answers to your specific questions about the licensing and vendorization process.

Personal Orientations are ideal for people who have questions or concerns, but are not required if you are ready to begin your license application or Regional Center Program Design. A down payment of \$200 will be processed to start your paperwork without a Personal Orientation.

Applications For A Facility License

The completion of an application for a facility license will take most people many weeks, even months, of tedious work. Once completed you will have no way of knowing what problems may be present in your work; problems that can delay the approval of your application and the granting of your license.

Since 2004, we have completed some 1,000 license applications for Adult Residential Facilities (ARF-DD's and ARF-MD's), Residential Care Facilities for the Elderly (RCFE's), and Small Family Homes (SFH's) throughout California. We prepare applications every month so we know what to expect during the process, and what licensing personnel are looking for.

When reviewing our menu, consider what your time is worth. A relatively small investment in professional help can save you time and money in the long run.

Applying for a facility license consists of completing an application that is divided into Part A and Part B. The Part A application consists of about 19 forms, some easy and some more challenging, while the Part B application is the narrative description of your program and can be 40 - 50 pages, or more, in length. Both sections include various related attachments. A fee is due upon submission of your application with the amount determined by your census. In addition to the application and fees, you must successfully complete three components:

Component I The CCLD orientation, available online or in person

Component II Face-to-Face interview at CCLD

Component III Inspection of the proposed facility by CCLD

We can provide **your choice** of 3 options for completing the *Part A Application*:

Option 1 - Part A Review

If you completed the Part A application yourself, we can review it all and make suggestions before you submit to CCLD.

Price: \$100

Note: Part A Review can be done in person within 30 miles of our address, or by fax, email, or regular mail for greater distances.

Basic Part A applications will be reviewed after you have received our completed samples and finished your work.

If we are delivering a Part B application to you, your *Part A Review* will be done during that visit.

Option 2 – Basic Part A

If you choose to complete the Part A application yourself, but haven't yet started, we can provide guidance, complete samples of the more difficult forms, and a review of it all before you submit to CCLD. Completed samples include LIC 309, 401, 401A, 403A, 500, 610, 999, Board Resolutions (corporations), Operating Agreements (for LLC's), and emergency relocation letters.

Price: \$155

The plan must include details such as:

ARF Restricted Health Condition Exception Or Waiver Request

California Health and Safety Codes define a Community Care Facility (CCF) as providing non-medical residential care. Residents who require specialized medical care generally may not reside in CCF's, though there are exceptions. Exceptions can be granted to an Adult Residential Facility (ARF) for certain "allowable health conditions," which are also referred to as "Restricted Health Conditions" or those requiring "Incidental Medical Services." Although *exception* is the term used in Title 22, in most cases Community Care Licensing Division (CCLD) will allow you to request a waiver instead. See below for an explanation of the difference. In an ARF, the allowable health conditions are:

- Use of inhalation-assistive devices
- Colostomy/ileostomies
- Requirement for fecal impaction removal, enemas, suppositories
- Use of catheters
- Staph or other serious, communicable infections
- Insulin-Dependent diabetes
- Stage 1 and 2 dermal ulcers
- Wounds
- Gastrostomies
- Tracheostomies

If the licensee of an ARF chooses to accept or retain a resident with a Restricted Health Condition, they must first obtain an exception or waiver from CCLD.

RA Mears Consulting can provide you with everything you need to request a waiver that meets Title 22 requirements, including:

- A cover letter to CCLD requesting the waiver.
- An addendum to your Plan Of Operation.
- A sample Restricted Health Condition Care Plan for each condition.

ARF Restricted Health Condition Waiver Request (1 condition)	\$175

If requesting an exception, we can provide you an addendum to your Plan Of Operation:

ARF Restricted Health Condition Exception Request (2-3 conditions)	\$175

ARF Sample Restricted Health Condition Care Plan (2-3 conditions)	\$125

If requesting an exception and would like both an addendum to your Plan Of Operation and a Sample Restricted Health Condition Care Plan the prices are the same as for a waiver above.

The request for diabetes includes a sample diabetic menu, if needed.

RCFE Restricted Health Condition Exception Or Waiver Request

California Health and Safety Codes define a Community Care Facility (CCF) as providing non-medical residential care. Residents who require specialized medical care generally may not be in CCF's, though there are exceptions. Exceptions can be granted to an Adult Residential Facility (ARF) for certain "allowable health conditions," which are also referred to as "Restricted Health Conditions" or those requiring "Incidental Medical Services." Although *exception* is the term used in Title 22, in most cases Community Care Licensing Division (CCLD) will allow you to request a *waiver* instead. See below for an explanation of the difference.. In an RCFE, these are:

- Administration of oxygen
- Catheter care
- Colostomy/Ileostomy care
- Contractures
- Diabetes
- Enemas, suppositories, and/or fecal impaction removal
- Incontinence of bowel and/or bladder
- Injections
- Intermittent Positive Pressure Breathing Machine (IPPBM)
- Stage 1 and 2 pressure sores (dermal ulcers)
- Wound care

If the licensee of a RCFE chooses to accept or retain a resident with a Restricted Health Condition, they must first obtain an exception or waiver from CCLD.

RA Mears Consulting can provide you with everything you need to request a waiver that meets Title 22 requirements, including:

- A cover letter to CCLD requesting the waiver.
- An addendum to your Plan Of Operation.
- A sample Physician's Statement and Appraisal/Needs and Services Plan.

RCFE Restricted Health Condition Waiver Request (1 condition)	\$150

RCFE Restricted Health Condition Exception Request (4-6 conditions)	\$220
RCFE Restricted Health Condition Exception Request (7-10 conditions)	\$265

If you only need a sample Physician's Statement and Appraisal/Needs and Services Plan:

ARF Sample Restricted Health Condition Care Plan (1 condition)	\$75
ARF Sample Restricted Health Condition Care Plan (2-3 conditions)	\$125
ARF Sample Restricted Health Condition Care Plan (4-6 conditions)	\$175
ARF Sample Restricted Health Condition Care Plan (7-10 conditions)	\$220

If you're requesting an exception and would like an addendum to your Plan Of Operation, a Physician's Statement and Appraisal/Needs and Services Plan the prices are the same as for a waiver above.

THE DIFFERENCE BETWEEN AN EXCEPTION AND A WAIVER

With regard to Restricted Health Conditions, an exception is specific to an individual and a waiver applies to an entire facility. RA Mears Consulting can provide everything you need when applying for a waiver. In most cases, the following additional information is needed when applying for an exception:

- A cover letter to CCLD that explains the specific details of the client needing the exception (i.e., diagnosis, primary physician, etc.).
- A physician's note or prescription for the required care (i.e., colostomy, catheter, insulin, etc.
- A letter of support from a conservator or placement agency (e.g., Regional Center), if applicable.
- A Restricted Health Condition Care Plan that is specific to the individual client, as opposed to a sample.

We recommend you inquire with your LPA to determine which applies to you. If possible, we strongly recommend you request a waiver rather than exception, which will allow you to admit clients with the specified condition(s) at any time in the future. If you must request an exception, RA Mears Consulting can provide the addendum to your Plan Of Operation or sample Restricted Health Condition Care Plan.

Plan Of Operation For Clients Who Are Bedridden

Per California Health and Safety Code, Section <u>1566.45</u>, 'bedridden' means either requiring assistance in turning and repositioning in bed, or being unable to independently transfer to and from bed. This includes residents who do not have the mental capacity to respond to directions to transfer from bed in emergency situations. Bedridden status can be either temporary (i.e., lasting less than 14 days), or long-term.

Bedridden persons can be admitted or retained in a Residential Care Facility for the Elderly (RCFE) with appropriate and sufficient care staff, mechanical devices if necessary, and safety precautions. Although an exception is no longer required to admit or retain a person who is bedridden, the licensee must ensure the following:

• The facility has obtained a bedridden fire clearance. The licensee must request the fire clearance within 48 hours of accepting or retaining a bedridden client.

- Notify CCLD in writing, including a physician's written statement regarding the cause and expected length of the bedridden status and a medical assessment (LIC 602A).
- Submit a Bedridden Plan Of Operation to CCLD.
- The facility has an updated floor plan identifying the location of the bedridden resident's bedroom.

RA Mears Consulting can provide you with the documentation you need to accept or retain a client that will be bedridden in excess of 14 days, including:

- A cover letter to CCLD.
- A bedridden Plan Of Operation.
- A sample Notification Of Bedridden Status.
- A blank Physician's Statement.

Price: \$150

Plan Of Operation For Care Of Persons With Dementia

Per California Health and Safety Code, Section <u>1569.627</u>, a Residential Care Facility For the Elderly (RCFE) that advertises or promotes special care, special programming, or a special environment for persons with dementia must provide a Plan Of Operation specifying dementia related care to Community Care Licensing Division (CCLD).

The *Plan Of Operation For Care Of Persons With Dementia* shall include a narrative description of all of the following features:

- Program philosophy and goals.
- Preadmission assessment.
- Admission.
- Program details, including a brief description of activities to decrease the effects of sundowning.
- Staff training.
- Physical environment.
- Changes in condition, including when changes made to a participant's care plan.
- Success indicators.

Licensees may request resident-specific exceptions or facility-wide waivers at their option. Those who occasionally have residents with dementia may decide on an exception, while those who routinely provide care for residents with dementia may decide that a waiver is more appropriate. The goals are the same: a plan for care and supervision that will meet the needs of residents with dementia.

RA Mears Consulting can provide you with the documentation you need to advertise or promote care of persons with dementia, including:

- A cover letter to CCLD.
- A Plan Of Operation for care of persons with dementia.

Price: \$275

Hospice Waiver Request

Hospice care is specialized support for individuals in the advancing stages of a terminal illness. A hospice care waiver will allow terminally ill residents to stay in the facility that is their home until their death occurs, or their needs can no longer be met within the scope of the license. The approved hospice care waiver will allow medical procedures to be provided in the facility by appropriately skilled professionals and others designated in the hospice care plan. Only residents who have contracted with a hospice agency to receive services can receive hospice care within the facility.

- <u>Facility Hospice Care Waiver</u>: A waiver granted by the Department that permits the retention in a facility of a designated maximum number of terminally ill residents who are receiving hospice services from a hospice agency. The waiver applies only to those residents who are receiving hospice care.
- <u>Terminally Ill Resident</u>: The resident's attending physician has determined that the resident's life expectancy is six months or less if his/her illness or condition runs its normal course.

If a licensee expects to permit current or future residents to receive hospice care within the facility, the licensee must obtain a hospice care waiver from the local licensing office. The request for a waiver must be approved before any hospice care can be provided. RA Mears Consulting can provide you with a *Hospice Waiver Request* that meets Title 22 requirements, including:

- A cover letter to CCLD requesting the waiver.
- A hospice waiver statement.
- A sample notification of initiation of hospice services.
- A sample prescription for hospice services.
- Hospice Care Plan guidelines.
- Staff training protocol.
- A sample notification of discontinuation of hospice services.

Applications for Regional Center Vendorization

In order to admit consumers of the Regional Center to your facility you must first become a vendor of one of 21 Regional Centers throughout California. The application consists of a few simple forms and a Program Design appropriate to the level of services you want to provide. The vendor application consists of a few simple forms and a Program Design appropriate to the level of services you want to provide. Program Designs are a narrative description of the program and services you will offer, along with various attachments. Program Designs are not the same as a licensing Part B document or Plan Of Operation.

The completion of a Program Design for Regional Center vendorization will take most people many weeks, even months, of tedious work. Once completed you will have no way of knowing what problems may be present in your work; problems that can delay the approval of your application and the granting of your vendorization.

Since 2004, we have completed some 400 Level 2, 3 and 4 Program Designs. Based on your answers to a simple questionnaire, RA Mears Consulting can complete a Program Design for you that will meet Title 17 and Regional Center requirements, including a program narrative, description of consumer services, activities and resources that are specific to your area, a description of instructional methods and assessment procedures, a sample staff schedule, House Rules and Grievance Procedure, Quarterly or Semi-Annual Report, etc.

Individual Service Plans (ISP's) and Data Collection

Typically, only Level 3 and Level 4 Regional Center facilities are required to develop written training plans and collect data on Individual Program Plan (IPP) objectives that the facility is responsible for.

The ISP objective does not have to be exactly the same as in the IPP, but it must be a step towards completion of it. For example, the IPP could state that the consumer will bathe independently, and the corresponding ISP states that the consumer will wash his legs and arms independently within a year.

The ISP should be a complete "blueprint" for how the training plan will be executed, containing enough information so that anyone, even someone who does not know the consumer, can read and implement it. At a minimum, the ISP should contain the following:

A Baseline or Current Status: Describes the current ability of the consumer with regard to a targeted skill, or the current frequency and severity of a targeted behavior. This is the starting point of the plan.

A Measureable Objective: Describes what the consumer is expected to achieve by the target date and is written in a way that anyone can see when the consumer achieves the goal. It needs to be observable, measurable, and time limited (recommended one year).

A Task Analysis: Describes the steps staff will take to train the resident on a task or intervene in a behavioral episode. Task analyses should include how often and when the training will occur, the methods and materials used, the types and hierarchy of promts and how they will be faded over time, how the consumer will be reinforced for success, and how data will be collected. In addition, task analyses for behaviors should include how the consumer will be taught to use more appropriate "replacement" behaviors, the antecedents that indicate the behavior is about to occur, and how staff should intervene.

JSP's should be written within 30-days of the placement meeting, the IPP meeting, or annual review.

RA Mears Consulting has developed a unique ISP format that combines the training plan and individualized data collection on a single page and that our clients tell us are extremely user friendly to them and their staff.

Quarterly or Semi-Annual Reports

Per <u>Title 17</u>, all Level 2 and 3 Regional Center facilities are required to prepare written semi-annual reports of consumer progress toward achievement of each IPP objective for which the facility is responsible. In addition, Level 4 facilities must prepare and submit Quarterly Reports. Many Regional Centers stipulate in the Admission Agreement or Provider Contract that all levels must prepare Quarterly Reports and we recommend you inquire with your Regional Center to see if this applies.

Quarterly and Semi-Annual Reports must include:

- A summary of the data collected for each Individual Program Plan (IPP) objective for which the facility is responsible for (Level 3 and 4 facilities only); community and leisure activities; overnight visits away from the facility; illness, medical and dental visits; and Special Incident Reports.
- The date of completion of the report and signature of the person preparing the report.
- For Level 4 facilities, the identification of barriers to consumer progress and actions taken in response to these barriers.

Level 4 facilities shall submit the Quarterly Report to the Service Coordinator (Client Program Coordinator, etc.) within 30 days of the end of the quarter.

Quarterly or Semi-Annual Reports should be completed within 30-days of the end of the quarter or semi-annual period. These periods begin with the birth month of the consumer. To assist you in submitting your reports on time, we will provide a printed Quarterly or Semi-Annual Report schedule free of charge.

RA Mears Consulting can prepare your *Quarterly or Semi-Annual Reports* using information you provide us.

Face Sheets

Regional Center facilities must keep a variety of consumer related information that is specified in both Titles 17 and 22. For example:

Title 17, Section 56059 (Residential Services Records):

- (b) Individual consumer files shall contain the following:
- (1) Current emergency information, including names, addresses and telephone numbers of the consumer's authorized representative and pharmacy;
- (2) Recent consumer photograph and physical description;
- (4) Consumer allergy record;

Title 22, Section 80070 (Client Records):

- (a) The licensee shall ensure that a separate, complete, and current record is maintained in the facility for each client.
- (b) Each record must contain information including, but not limited to, the following:
- (1) Name of client.
- (2) Birthdate.
- (3) Sex.
- (4) Date of admission.
- (5) Names, addresses, and telephone numbers of authorized representative(s).
- (7) Name, address and telephone number of physician and dentist, and other medical and mental health providers, if any.

Regional Center facilities satisfy these requirements by maintaining detailed consumer $Face\ Sheets$. Not only are they required, but an organized, stylish, and professional looking $Face\ Sheet$ can make your consumer books stand out and really shine. Choose from four (4) unique Face Sheet styles in the links below.

Preparation Of Regional Center Appeals

Regional Centers issue citations to facilities for a variety of reasons. The two main categories are <u>Immediate Dangers</u> and <u>Substantial Inadequacies</u>. If you have received a citation you must agree to a <u>Corrective Action Plan</u> or CAP. If a Substantial Inadequacy is not corrected within the timeframe specified in the CAP, or if any facility receives two (2) Substantial Inadequacies within any twelve (12) month period, the Regional Center may impose <u>sanctions</u> or even reduce the facility's approved service level, and thereby your rate of reimbursement.

Although most facilities receive citations at some point and most are not damaging or disruptive to your business, others can be very harmful. Any time you are issued a citation for an Immediate Danger or Substantial Inadequacy, or sanctions are imposed on your facility, the Regional Center must inform you of your right to appeal it.

There are two appeals available to you. The first is heard by a representative of the Regional Center that the facility is contracted with. If the facility is dissatisfied with the decision made at this level, they may appeal to the Director of DDS, also known as a "state level" appeal. The decision at the state level is final.

RA Mears Consulting can prepare a professional appeal for you. It is our philosophy that your appeal cannot simply be a canned template that is modified with your personal details. We prepare appeals through a dynamic process that involves multiple interviews, follow-up meetings, and the developments of initial drafts that are edited and fine tuned before they are ready. We can help you with the following aspects of an appeal:

- A letter to the Regional Center requesting the appeal.
- Preparation of appeal documentation, including exhibits and notes for you to follow.
- Guidance to prepare you for the appeal, such as role playing and familiarizing you with relevant regulations.

RA Mears Consulting will not be present for your *Regional Center Appeal*, but will prepare you and the required documentation. Assistance from RA Mears Consulting, or any other entity, is no guarantee that your appeal will be won.

Request For Proposal (RFP) Applications

Just as it sounds, this process occurs when a Regional Center announces that it is requesting proposals to meet an identified consumer need. In the announcement, the Regional Center explains the type of resource or service that is needed, the specific population to be served, and the start-up and/or ongoing funding that is available to the applicant that is chosen. Any person or business entity that meets the eligibility criteria set forth in the *Request For Proposals* can submit a one.

Regional Centers, through contracts with the California Department of Developmental Services, will issue a *Request For Proposals* when there is funding available to develop and support a resource that will clearly benefit consumers. Examples include small Community Care Facilities for consumers moving out of state hospitals, and day and residential programs for those that have a criminal record.

The RFP process is very competitive. Applicants must submit proposals that strictly follow a defined format and must meet the RFP deadlines. The proposals are then reviewed by a Regional Center selection committee using a subjective scoring process that ranks them in comparison to the other proposals that were submitted. Applicants that are well matched with the RFP in terms of background, education, and experience will have the best chance of being chosen.

RA Mears Consulting can prepare a competitive Request For Proposals application for you. It is our philosophy that your application cannot simply be a canned template that is modified with your personal details. We prepare Request For Proposals applications through a dynamic process that involves multiple interviews, follow-up meetings, and the developments of initial drafts that are edited and fine tuned before they are ready to submit. For this reason, we will not consider writing a Request For Proposals application with less than three (3) weeks until the deadline, and we prefer at least four (4).
