

CCLD Checklists and Forms

Title 22 requires licensed facilities to maintain a variety of documentation. Examples of information that must be maintained includes records of services provided, healthcare appointments, details regarding behavioral incidents, consultant hours, fire drills, staff records and training, etc. The amount and type of documentation you need to keep will vary based on the type of facility, the funding source, special conditions served, and many other factors. We are able to provide a variety of checklists and forms, developed over many years of contact with facilities, to help you to meet your documentation requirements.

The following checklists and forms are available. Some of them are available in several formats to meet the specific regulations of ARF-MD, ARF-DD, and RCFE facilities. If you don't see what you need, let us know. We may be able to create a form from to suit your needs. You may choose any three (3) for \$30.

Staff Documentation Due At Hire Checklist

Client/Resident Documentation Due On Placement Checklist

CCLD Checklists and Forms will be sent by email or regular mail, as agreed on. All *CCLD Checklists and Forms* delivered electronically will be in non-modifiable PDF format and *will not* be provided in a modifiable format (e.g., DOC, TXT). They can then be printed and filled out by hand, or filled out electronically using Adobe Reader. We are willing to make modifications to our forms to meet your needs. Please contact us to discuss your specific requirements.
