

Modifiable Client Care Plan

California Health and Safety Codes define a Community Care Facility (CCF) as providing non-medical residential care. Residents who require specialized medical care generally may not be in CCFs, though there are exceptions. Exceptions (or waivers) can be granted to a Residential Care Facility for the Elderly (RCFE) for certain “allowable health conditions,” which are also referred to as “Restricted Health Conditions” or those requiring “Incidental Medical Services.” For an RCFE, these are:

- Administration of oxygen
- Catheter care
- Colostomy/Ileostomy care
- Contractures
- Diabetes
- Enemas, suppositories, and/or fecal impaction removal
- Incontinence of bowel and/or bladder
- Injections
- Intermittent Positive Pressure Breathing Machine (IPPBM)
- Stage 1 and 2 pressure sores (dermal ulcers)
- Wound care

If the licensee of an RCFE chooses to accept or retain a resident with a Restricted Health Condition, they must first obtain an “exception” from Community Care Licensing. Once CCL has granted the exception, you must develop and maintain a written Client Care Plan (CCP).

RA Mears Consulting can provide you with a modifiable template that will allow you to create your own CCP to meet Title 22 requirements. Simply substitute our information with your own. We will provide you with:

- A modifiable cover letter requesting the exception.
- A modifiable Restricted Health Condition Care Plan.
- A blank Physician’s Statement.

Price: \$75

Note: See our *Products & Services Price List and Policies* for full details. You are accountable for knowing the contents of your *Modifiable Client Care Plan* and for providing the services therein. To this end, RA Mears Consulting will provide an overview of any documentation provided to you, as needed.

A *Modifiable Client Care Plan* delivered outside of San Diego County will be sent by email, fax, or physical mail, as agreed on.

All prices include any revisions to your *Modifiable Client Care Plan* required by CCL.
