

## Plan Of Operation for Care of Persons with Dementia

Per California Health and Safety Code, a Residential Care Facility For the Elderly (RCFE) that advertises or promotes special care, special programming, or a special environment for persons with dementia must provide a Plan Of Operation specifying dementia related care to Community Care Licensing Division (CCLD).

The *Plan Of Operation for Care of Persons with Dementia* shall include a narrative description of all of the following features:

- Program philosophy and goals.
- Preadmission assessment.
- Admission.
- Program details, including a brief description of activities to decrease the effects of sundowning.
- Staff training.
- Physical environment.
- Changes in condition, including when changes made to a participant's care plan.
- Success indicators.

Licensees may request resident-specific exceptions or facility-wide waivers at their option. Those who occasionally have residents with dementia may decide on an exception, while those who routinely provide care for residents with dementia may decide that a waiver is more appropriate. The goals are the same: a plan for care and supervision that will meet the needs of residents with dementia.

RA Mears Consulting can provide you with the documentation you need to advertise or promote care of persons with dementia, including:

- A cover letter to CCLD.
- A Plan Of Operation for care of persons with dementia.

**Price:** \$275

**Note:** See our *Products & Services Price List and Policies* for full details. You are accountable for knowing the contents of your *Plan Of Operation for Care of Persons with Dementia* and for providing the services therein. To this end, RA Mears Consulting will provide an overview of any documentation provided to you, as needed.

*Plan Of Operation for Care of Persons with Dementia* delivered outside of San Diego County will be sent by email, fax, or regular mail, as agreed on.

All prices include any revisions to your *Plan Of Operation for Care of Persons with Dementia* required by CCLD.
